"I really appreciate the time you spent helping me decide if I should install Vonage cloud-based phones or a premise-based phone system. You showed me that the monthly cost for Vonage Testimonials was substantially more money than owning my own system. The Panasonic phone system I purchased from you meets all my requirements. Plus, it's saving me substantial money a month versus cloud service. Please let your tech's, John and Michael know they did a terrific job... Thanks again!"

Rick I would just like to reach out to you and thank you for sending Mike to service our library. He was very familiar with our system, isolated the problem and had it fixed in no time at all. On top of that he went above and beyond what the job called for by coming back to our facility a second time to drop a phone off and reprogram another that was not working properly.. He was extremely professional and I would highly recommend Mike and your company for any phone problems. Thank you .
